ProLiteracy Security Questions

1. Create a security question.
2. Click Continue.

Define Security Questions

From the drop down list(s) below, select question(s) that can be used later to confirm your identity should you forget your password.

Note: In the future when answering a security question you must enter the answer EXACTLY as you typed it here. Answers are case-sensitive, so if you use capital (upper-case) letters when entering the answer now, you will need to also capitalize those letters when answering the question later. Also, if entering a date as an answer, when answering the question later, you must type it exactly as you did on this screen, using the same dashes, hyphens or other characters as you enter now.

* The answer(s) must be at least 3 characters in length.

1.

Security Question:

What was the name of your elem ▼

Answer:

Confirm Answer:

Cancel
